

Yes, this is an Asian inspired eatery and no, we are not Asian and we did not spend years only cooking rice for sushi. But... we love exploring, we love combining experience and travels, we love trying new ideas and stretching ourselves and if we're really honest, we love soy, wasabi and the pink ginger. We are happy to fill your grumbling tummy (Peko Peko) with our ideas, our respect for ingredients and local produce and lovely food.

Thank you for joining us!
