# LEARNING CENTRE

## *Inspiring the Next Generation*

Since its inception in 2018, Norval Foundation has been committed to nurturing the understanding and appreciation of African art. It strives to position African artists within the global art historical canon, fostering awareness and elevating the discourse around their contributions. Moreover, the Foundation's commitment to cultural enrichment and education is evident through its robust public programming and dedicated Learning Centre, which aims to support the creative development of young minds in South Africa.

The Norval Foundation Learning Centre is dedicated to growing young minds through art education, exposing and educating children in our museum and sculpture garden.
